

ECO ENGINEERING TODAY

From energy efficiency to sustainable energy systems and resiliency, you can trust our team of nationwide experts to design, engineer, and manage turnkey projects from concept to construction. We deliver innovative solutions that precisely match your energy goals and commit to completing your project on time, on budget, resulting in a delighted customer.

ENERGY SOLUTIONS & CAPABILITIES

Eco Engineering is your partner and single point of contact to manage your turnkey project from engineering, to design, to procurement, to incentives, to installation.

ENERGY EFFICIENCY

- Nationwide, design-build licensed electrical contractor
- In-house, licensed engineers and internal crews
- Turnkey, energy saving LED lighting retrofits
- Lighting control projects
- IoT/connected lighting
- Building envelope optimization

SUSTAINABLE ENERGY

- Nationwide, licensed engineering, procurement and construction firm
- Full, turnkey EPC services to seamlessly design, manage & install:
 - Large-scale solar (pv) installations
 - Behind-the-Meter solar solutions
 - Ground mount, commercial rooftops, carports/canopies and parking structures
 - Battery Energy Storage Systems (BESS) and standby generators
 - Electric Vehicle charging station infrastructure

ENERGY IMPACT

- Reduced energy consumption by 9+ billion kWh
- Saved over \$900 million in cumulative energy costs
- Over \$100 million in annual energy savings from lighting retrofits

HIGH-QUALITY PROJECT EXPERTISE

- More than 3,100 energy efficient lighting projects across more than 13,400+ facilities
- Over 270 million square feet of facility upgrades and enhancements
- Over 20 years of experience with ESCO partners and ESPC projects
- Completed service across all 50 States, 7 Canadian Provinces, Puerto Rico, Guam and The Caribbean
- Contracted over 55MW of solar installations across 8 different states
- Secured EV Charging installation for various public and private sector entities
- Contracted multiple generator installations across Texas

MARKETS SERVED

- Commercial and Industrial (C&I)- Fortune 1000 Companies
- ESCO (Energy Service Companies) + Federal and MUSH Clients
- Solar Developers
